

THE ATTENTION

OF

Pattern Makers & Carpenters

Superintendents of Manual Training Schools

and any person wanting a **Rapid-Acting Woodworkers' Vise** is called, and they will find it to their interest to examine the **HERRIMAN VISE** carefully. Why? For this reason— if you will examine this vise you will have no other; and why—because of its

Strength. Positive Action and Durability

and the advantages it has over all other rapid-acting vises of giving you the continuous use of the entire length of the screw.

These vises are in use from the Atlantic to the Pacific Ocean.

TESTIMONIALS.

BOARD OF EDUCATION.

Office of Superintendents of Schools.

Chicago, Sept. 2, 1904.

MR. C. A. HERRIMAN

My dear Sir:-I have given your vise a thoroughly good trial in one of our schools for the past year, and consider it one of the best, if not the best vise on the market. It is equally as good as the Toles vise and you sell it at a much lower price.

Yours sincerely,

ROBT. M. SMITH

Superintendent of Manual Training.

BOARD OF EDUCATION.

Medill High School

Chicago, Sept. 12, 1904.

MR. C. A. HERRIMAN

Dear Sir:- Your vise has been given a very severe test during the past year in this school and has given satisfaction in every respect. I consider it the equal if not the best vise made.

Respectfully,

FRANK P. SULLIVAN
Instructor

LEWIS INSTITUTE

Chicago, Oct. 10, 1904.

MR. C. A. HERRIMAN

15 S. Canal St.

Dear Sir:-The Herriman vise which is in use in the wood shop of Lewis Institute has given complete satisfaction, I believe they are the Ideal vise for Manual Training schools and woodworkers in general.

It gives me great pleasure to testify to their excellence.

GEO. A. ROSS

Instructions in Wood Works.

Chicago, Oct. 3, 1904.

MR. C. A. HERRIMAN

Dear Sir:- In regard to the quick acting vise I received from you over a year ago, I must say: It meets every requirement.

The continuous screw with its quick and positive action in taking hold and letting go are features that make it the most desirable vise I have ever seen or used in thirty years of experience in making models and patterns.

Yours

L. M. ROUSE.
